\$60/\$75 | 3+ 30/60 min. \$75/\$100

Enjoy the luxuriating healing heat of our Far Infrared Sauna. Relax as you view the peaceful Colorado River and let the far infrared heat penetrate and heal your overused muscles, joints, and tissues as it increases circulation and oxygen delivery throughout your body, decreasing healing time.

This boost to the cardiovascular system increases heart rate (similar to a medium workout), reduces blood pressure,* and improves vascular compliance. This can reduce the risk of coronary disease, hypertension, respiratory diseases, Alzheimer's, dementia, and sudden cardiac death. It also relieves pain, enhances the immune system, and helps to detoxify your body of accumulated metals, alcohol, nicotine, sulfuric acid, and other organic and inorganic compounds as you lightly sweat.

You get a better detoxification at lower temperatures (110-130 °F) than at higher temperatures as delivered in a dry sauna. Remember, the infrared is what heals, not sweating at high temperatures.

**A blood pressure cuff is available to check your BP before, after, and 30 minutes after your treatment.*
